

Ulster Scots Primary

CCEA's new Ulster-Scots for Primary Schools teaching resources are the result of collaboration between CCEA and the Ulster-Scots Agency. The resource is aimed to assist primary school teachers in introducing Ulster-Scots language, culture and heritage to the classroom.

Teachers will be able to use these resources as a basis for developing their own unique learning opportunities to meet the needs of their pupils. A key objective of the Northern Ireland Curriculum is helping young people develop as both individuals and contributors to society.

An important aspect of this is encouraging ways to explore and appreciate the diversity and richness of local cultures and traditions. Learning opportunities exist in areas such as Personal Development and Mutual Understanding, the World Around Us, The Arts and Language and Literacy.

Ulster-Scots for Primary Schools is a valuable addition to the wide range of resources already available and will assist teachers in the development of engaging learning opportunities.
